Brothers Walking from Boston to Los Angeles to Make Test of Different Diets Visit Albuquerque.

D. H. and W. H. Buffum, two brothers, who are walking from Boston to the Pacific coast to test the comparative endurance of men fed with different diets were in the city Saturday on their way west. The two young men are taking the trip in the interest of one of the departments of Harvard university. One is a vegetarian and the other habitually eats the usual meat and vegetable diet of most people. The vegetarian, W. H. Buffum, is at present slightly heavier than his brother, but does not appear to have the enduring capacity of the other man. D. H. Buffum subsists on an ordinary average diet of meats and vegetables, and presents a fine-trained appearance, with apparently excellent vitality. Both are healthy, clear-eyed young men and take a great interest in their trip. They recount all sorts of hardships experienced on the road, and say that while they are glad to have made this trip, they will never undertake another. They have been on the road since June. The Buffums will go west from here tomorrow.

Eugene Kempnich, former traveling man of this city, but now a merchant of Peraltas, was in the city Saturday on business. He returned this morning.

Among the guests who have arrived here for the Rothberger-Grundfeld wedding are Mr. and Mrs. Julius Rosenwald, Mrs. E. A. Stonehill, Mrs. Austin, all of Chicago; Mr. and Mrs. Albert Roseman of Boston and Mrs. S. Barret of Denver.

President M. P. Ripley of the Santa Fe was in Albuquerque for a few minutes last night in his private car, en route to the Pacific coast to spend the winter. The train's arrival which was the cause of considerable worry to him when he was here a few months ago, is considerably better.

Among the school teachers who crowded the Alvarado and the depot platform Saturday night, on their way home from their meeting in Santa Fe, were A. A. Kaiser, superintendent of schools for Eddy county, and W. A. Paeve, recently elected to succeed Mr. Kaiser.

No better indication of the growth of a city is to be had than the demand for hotel accommodations, and accordingly this city is advancing rapidly. The latest advance in this line is the announced leasing of the third floor of the Luna-Strickler building by Mrs. Fred Hanna, previously located in the Korber block. A thoroughly modern rooming house is to be conducted and the thirty-two rooms provide an opportunity such as few other buildings in the city. The furnishings have already been installed and guests are being taken care of according to the reputation of the management.

MINSTREL SHOW IS BETTER THAN USUAL

New Songs, and the Comedy Work of Clarence Powell, Are Especially Effective Saturday Evening.

The effective comedy work of Clarence Powell was the main feature of the minstrel show put on here Saturday night by Richard and Pringle's minstrels. A feature which was a close second to Powell's comedy faces and humorous songs, was the band and orchestra playing. This was remarkably good.

The idea of having the show appear from the veranda and steps of a hotel, with the minstrels costumed as waiters and bell boys, was novel and took with the crowd at first glance. The musical quartette in the second section of the entertainment were better than is generally heard in a minstrel show, and might well make way in vaudeville, somewhere close to the top of the bill. The saxophone playing was particularly good.

DARK ALLEYS TO HAVE LIGHTS

Proposition Has Been Laid Before Committee of City Council; Business Houses Will Be Protected.

As a result of some agitation by those who have the highest standard of efficiency of the police department most at heart it is very probable that incandescent lights will be placed in all of the down town alleys.

Few realize the danger of robbery from thugs concealing themselves in dark alleys. Frequently arrests of dangerous characters have been made by the police of thugs hiding in a dark corner. Some of the alleys are so dark that it is impossible to see any object and accordingly the advantage is altogether with the man in hiding.

With three lights in each block of alley at a very small cost, the police will be able to detect any one in hiding or trying to make an entrance into a building. Not only will the work of the police be enhanced but the protection for property owners will be more than doubled. It is natural that the man evading detection will seek the darkest place. Most of the robberies of business concerns in recent years have been from the windows and doors nearest to dark alley ways.

The proposed district will run from Tijeras to the viaduct and from First to Sixth, taking in all of the alleys in the business district.

The proposition has been placed before the proper committee of the city council and it is expected that favorable action will be taken immediately. The proposed plan of financing the proposition is that the council make an appropriation to partially cover the cost and that the remainder be made by popular subscriptions from the merchants to be benefited by the improvement.

BAGGED THREE DEER IN SHORT TIME

Trio of Albuquerque Nimrods Highly Eulogize San Mateo Country; They Kill the Bucks.

The deer-shooting record for local nimrods is believed to have been established this week by W. Y. Walton, T. A. Foote and Dr. Cooper, who returned Thursday from an invasion of the San Mateo mountains. They brought with them three of the finest bucks ever exhibited here, and they declare without batting an eye that the deer were killed within a few hours after the hunting camp had been set up.

The largest deer, prey to the deadly aim of Mr. Walton, was yesterday on display at Hugo Trotter's and was viewed with envious admiration by scores of local hunters and others. Mr. Foote, who can speak from wide experience on such matters, declares that the San Mateo country is a veritable hunter's paradise. To reach it, he says, will abundantly repay any lover of the forest primeval for the necessary eighty-five mile drive.

ORATORICAL CONTEST WON BY W. C. COOK

Local Boy Is Not Accorded Warm Reception at First, But Orator Carries House by Storm.

Accorded a warmer reception at Santa Fe Saturday night than were the other entrants of the oratorical contest, W. C. Cook, who represented the University of New Mexico, so impressed his hearers that he was given the medal which goes to first place. Cook represented the University last year, and took the second prize at that time.

His oration this year dealt with the physical problems confronting society, and took up at some length the science of eugenics. Clarence Thomas of the Agricultural college, M. A. Otero, Jr., of the Military Institute, and Miss Aurora Lucero of the Normal University, were the other contestants. The judges were: Judge Ira A. Abbott, W. J. Lucas, Miss Evelyn Butler. On delivery: Judge John R. McFie, Hon. Nathan Jaffa, Mrs. Leona Lodge.
